## Description

The SX2100EZ is a two line Music-On-Hold adapter to provide the ultimate interface solution in message and music on hold applications for regular analog telephones.

This device delivers outstanding audio quality from any external audio source and supports up to 2 lines and up to 50 telephones when used with standard phones.

The SX2100EZ activates via Hold or Flash button on any phone, requires no attachments to the phone and does not use touch tones such as star "\*" or "#" etc.

The SX2100EZ works on cordless phones by pressing Flash then Hold button as well, it provides an easy to use solution in message on hold applications for the standard 1, 2 ,or 3 or 4 line regular telephones (2 incoming lines supported).
